SUITS, OVERCOATS, HATS, UNDERWEAR,

Waterproofs and Boys' Clothing, Etc., Etc.

AT BEDROCK PRICES!

OUR LORD'S GREAT PROPHECY.

Synopsis of the Discourse Given at the Gospel Tent Last Night.

The 24th chapter of Matthew, being the longest prediction of consecutive events uttered by Christ while here upon the earth, has been justly styled "Our Lord's Great Prophecy."

The prediction covers all the gospel dispensation from the days of Christ to the end of time. It was not fulfilled at and by the overthrow of Jerusalem in A. D. 70, and the dispersion of the Jewish nation, as some claim. This is proved by many considerations, among which may be mentioned: (1). The fulfillment of verse 7, which could not take place till after the Roman Empire had broken up, and nations and kingdoms had then developed therefrom. But for a hundred years previous to the overthrow of Jerusalem, and for nearly three hundred years afterwards, Rome, like a mighty colossus, bestrode the world, and held all people subject to itself in the unity of the empire. (2). After their rejection of Christ the Jews were not the elect of verse 22. The days of tribulation accompanying the destruction of Jerusalem were not shortened for their sake, neither were they shortened for the sake of Christians, the true elect; for these all fled from Jerusalem at the appointed sign, and found safe shelter at Pella, sixty miles away, while wrath to the uttermost came upon the Jewish people. (3). The signs predicted, verses 29, were to come *after* the tribulation referred to; but all the signs pertaining to the destruction of Jerusalem occurred *before* that event. (4). Verse 14 could not be fulfilled till the light of the gospel had made the circuit of the globe. This was not true in that day, but it is in ours.

(5) No such sign as verse 29 predicted to occur took place at the destruction of Jerusalem. It must therefore refer to a later time.

(6.) The events attendant upon the coming of the Son of Man, as described in verses 27, 30 and 31—the sudden glory, flashes like the lightning from east to west, the wailing of all the tribes of the earth, and the sending of angels in dazzling glory to gather the elect from the four winds of heaven—no such events occurred at the destruction of Jerusalem. The man is utterly reckless who will make such a preposterous affirmation.

The disciples, impressed with the glory and magnificence of the temple, called Christ's attention to the massive and apparently imperishable structure. The stones in the foundation were of marvelous size—fifty feet long, twenty-four feet broad, and fifteen feet thick, making eighteen thousand cubic feet of stone in one block; and these were bound together with lead, and fastened with strong iron clamps. In reply he reveals to them the sad fact of its coming destruction, when not one stone should be left upon another. In the overthrow of Jerusalem, the stones of the temple were not only broken and dislodged, but the very ground on which they were erected was dug up and finally plowed by one Turnus Rufus.

The Saviour mentions that the sun and moon are to be darkened, the stars fall from heaven. To give his declarations double strength, the Lord now introduces the parable of the fig tree. And he concludes a solemn affirmation that "this generation shall not pass away till all these things be fulfilled: The generation now living will see Christ come.

Subject to-night—Object of Christ's Coming.

HEARD THEIR NEW PASTOR.

The Rev. Wm. D. Grant at the South Bergen Reformed Church.

A large audience gathered in the South Bergen Reformed Church, says the Jersey City *News*, of June 3rd, to hear the Rev. William Grant, brother of Mayor Grant of Victoria, B. C., preach.

Mr. Grant hails from the Broome street Tabernacle (Presbyterian) New York and resigned amid the warm regrets of many friends. He has become exceedingly popular with the South Bergen Reformed congregation. His sermon yesterday morning was chosen from Philippians ii, 12, 13, "Work out your own salvation with fear and trembling, for it is God who worketh in you both to will and to do of His good pleasure," "The prevailing opinion," he said, "is that these words were addressed to the unsaved" To show that they were addressed to the saved he quoted John vi, 29, where it reads, "This the work of God, that ye believe on Him whom He hath sent." To do everything else and leave this undone was really to do nothing. The minister followed up this line of reason by seven scriptural arguments.

"The philosophical reason for the Apostle not saying to an unsaved soul, 'work out your own salvation,' is that one must have involution before evolution—cause must precede effect; life must precede growth.—We readily admit in the physical world that you can't get more out of a man than there is in him.

"But in what frame of mind is this work to be done? Are our hearts to be fearful, and our courage weakened by the thought of our own insecurity ever pressing upon us? The Apostle wishes to impress upon these Christians the truth that God is with them—in them. 'Ye are the temples of the Holy Ghost.' Therefore fear: 'Grieve not the Spirit of God.'

"It is a peculiar and delicate task the Christian has to do. Therefore be anxiously solicitous. Compare a man working on a large block of granite with the diamond polisher. We are not working in granite blocks, but on diamonds; with jewels that are to shine in the diadem of King Emmanuel for ever and ever. In view of this, we cannot exercise too much caution, lest the gem should in any way fail to reflect the brightness, purity and glory of God. Therefore work out with fear and trembling.

"The sculptor has an idea he wishes to embody in marble; the painter has a landscape he wishes to produce upon canvas. Each goes about his task with more or less fear and trembling. What is the believer exhorted to 'work out?'—his own salvation; that is, man himself is the rough material to be wrought upon. The God man, perfect and holy is the model. We are to reproduce by the power of God the spirit of sweetness, the beauty and graces of the fairest among ten thousand, until we shall arrive at the fullness of the stature, a perfect man in Christ."

At the installation on the following Wednesday evening the church was crowded to the doors and services very interesting. The platform, pulpit and organ were elaborately decorated with flowers, and a cross of daisies was fastened to the front of the pulpit. Addresses, vocal and instrumental solos and hymns by the choir followed the installation. The new pastor was surrounded by his new flock at the conclusion and received hearty congratulations and wishes for a successful and peaceful ministry. Mr. Grant is a young man, full of life and vigor. His sermons are liked by the South Bergen Reformed congregation because they are solid. He is also looked upon as just the man to push the project of building a new church, which the congregation are now seriously contemplating.

Eiffel is said to have gained the first idea of the tower which bears his name from sitting behind an American woman in an American theatre.

GENERAL DISPATCHES.

Surveyors to Define the Alaska Boundary—Car Load of Ostriches.

New Rubber Manufactory—The C. P. R. and Bonding Privileges.

By Postal Telegraph)

Toronto, June 14.—A dispatch to the *World* says Lord Salisbury has called Sir John Macdonald to London so that a better understanding may be arrived at regarding the present strained relations between Canada and the United States than it is possible to reach through written communications.

THE DESMOND WHO IS WANTED.

San Francisco, June 13.—In relation to Tom Desmond, spoken of in the Chicago dispatches as wanted by the police, Chief Crowley denied that he had received instructions to arrest Desmond or anyone else. The Thomas Desmond referred to is well known in this city, having been a central figure during the sand lot agitation. He was the main support of Denis Kearney during his memorable campaign, and secured from him the nomination for sheriff on the sand lot ticket. Desmond was elected and served his term, at the expiration of which he sought nomination from the hands of the Democratic party but he failed to secure the prize. Since then he has returned to the pursuit of his trade, which is carriage painting. His former associates, when asked about him profess ignorance as to his whereabouts. He first gained notoriety in 1867 as one of the crew of the vessel Catalpa, which was fitted out in England to liberate a number of Fenian prisoners who had been exiled to Australia.

ALASKA COMMERCIAL COMPANY.

San Francisco, June 13.—The stockholders of the Alaska Commercial Company met this afternoon and elected the following trustees for the ensuing year: Louis Sloss, G. Viebaum, G. A. Williams, Vasbobi, and Thos. F. Graggs. Louis Sloss was elected president; G. Viebaum, vice-president, and M. Helibronner, secretary.

CARLOAD OF OSTRICHES.

San Francisco, June 14.—A carload of ostriches was sent east yesterday over the Union Pacific road from Red Bluff to Kansas City. This is the first shipment of the kind ever made from the state. The birds go to Sells Brothers' circus and were raised near Red Bluff.

NEW RUBBER FACTORY.

The first rubber factory for manufacturing mechanical rubber goods, such as hose, belting, packing, etc., from crude India rubber, was started yesterday at 409 Market street, by W. P. Bowers & Co. This new enterprise gives employment to a large number of skilled workmen, and opens a trade direct with Central America.

BONDING PRIVILEGES.

A local representative of the Canadian Pacific does not think that there is any cause for alarm, as suggested by the dispatch from Ottawa stating that the United States Government has refused to grant bonding privileges to his road over the line through Maine to the Atlantic seaboard. He says the Canadian Pacific is sure to comply with United States demands and the trouble will be readily settled.

MACLAY COLLEGE.

San Fernando, Cal., June 14—The first graduation exercises of the Maclay College of Theology was held in the chapel yesterday afternoon. Addresses were made by President Boward, of the University of Southern California, and Dean R. S. Maclay, of Maclay college. John A. Morrison, the first graduate of the college, received the degree of B. D.

TO DEFINE THE BOUNDARY.

San Francisco, June 11—The steamer Eliza sailed this morning for Alaska. She takes up two parties of surveyors who are to define the boundary line between Alaska and British Columbia. There are twenty men in the two parties and they will be gone eighteen months. Prof. J. N. Russell of the Smithsonian Institute, also went on the steamer. He will make investigations in the interest of the United States Geological Society. The surveying parties are sent by the Government.

LICENSING BOARD.

Transfers Granted—A Chinaman Wants a License and is Refused.

The following gentlemen constituted the Licensing Court which met at noon to-day in the police court room. His Worship Mayor Grant, Hon. A. N. Richards, Q. C., and Alderman J. B. Harrison.

Clerk Dowler read an application for a transfer of the license held at the Western Hotel from Oliver Dean to W. H. Shewin. Granted.

A. J. Bechtel applied for a transfer of the license held by C. Pagden at the premises known as the St. Nicholas Hotel. Granted.

C. Zoelle applied for a transfer of the license held at King's Head saloon to W. White. Granted.

W. G. Sum applied for a license to sell liquors at his restaurant on Johnson street.

His Worship—Who is W. G. Sum?

Supt. Sheppard—A Chinaman, your Worship.

Clerk Dowler—Petitions protesting against the granting of new licenses are in my hands from the W. C. T. U. and others.

Mr. Wootten appeared for the applicant and said he would object to reading the petition at this stage of the proceedings. It was not a question whether he is a Chinaman. The question should be, is he a proper person to sell liquor.

H. G. Hall appeared for the petitioners against granting new licenses, and said he considered that it was proper to read them at the time.

Theo. Davie considered that Mr. Wootten took good grounds against the reading of the petitions. The reading of them perhaps would affect the whole of the applications for new licenses outside of W. G. Sum, whoever he may be. The court is not informed that the signatures to the petition are correct. The law states that every application should be considered upon its own grounds. The petition in favor of a retail liquor license must be signed in the locality where the license is applied for. The intention should be applied both ways.

Mr. Hall said Mr. Davie was straining the Act. The petitioners considered that it was detrimental to the city to issue new licenses. The Act does not prevent the handing in of a petition. It is was proper to receive only petitions from residents of the locality where the license is applied for it was also necessary to read a petition in favor of the granting of this license.

His Worship—It is only necessary to present petitions where applications are sent in for a license to saloons and stores.

Mr. Hall—Then, if that is the ground taken against reading the petition, the present Court is not in a position to grant a restaurant license, because the Act shows in no place that a restaurant license should be issued.

Mr. Davie—The petitions might be signed by persons in Nanaimo.

Mr. Hall—The petitions were signed by good, respectable citizens. It was time the city came to the conclusion that the granting of new licenses should be done away with, unless the city intends to increase the police force. The granting of this license to a Chinaman would open the door to something perhaps worse than selling liquor at meals.

His Worship—Do you think, Supt. Sheppard, that this man is a proper person to receive a license.

Supt. Sheppard—No, Your Worship; I had occasion to send the police there once and a prostitute was arrested in the house who was living there.

The Court decided to defer the granting of a license until the next sitting of the Court.

W. McCue applied for a license to sell liquor at the corner of Douglas and Fort streets, at the premises known as the Victoria Hotel.

Mr. T. Davie appeared for the applicant, and a license was granted provided the applicant opened the place as an hotel.

His Worship said this city is not provided with enough hotels, and if gentlemen expend a large sum of money in the erection of buildings they should have the same consideration as others in the city. The strictly temperance party should erect a hotel. It was the duty of the police to see that the law is carried out.

Joseph Carpenter applied for a transfer of the license held by James Delley at the Caledonia saloon, corner of Store and Cormorant streets. Granted.

J. Sommerville applied for a transfer of the license held by Geo. Mann at the corner of Discovery and Store streets. Granted.

Mr. Fox applied for a license to sell liquor in Carey's block, Cormorant street. Mr. Davie appeared for the applicant.

His Honor said the issuing of licenses amongst the Chinese would assist materially in the traffic of selling liquor to Indians.

Mr. Davie said the building was near a railway depot and two founderies; the application was backed up by a number of gentlemen interested in property. The building is located 200 feet from the railway station.

His Honor—The railway company might object to the sale of liquor near their depot. The property was too good to turn into a saloon.

Mr. Davis—The new Act gives almost local option and the petition in favor of the license is signed by gentlemen owning two million dollars worth of property.

Mr. Hall said the petition was signed by persons owning no land in the locality.

Mr. Carey was sworn to give evidence regarding the number of owners and householders. "The petition in favor of the license was," said the witness, "signed by nearly all the property owners. I consider that the Chinese in the locality numbered nearly 1,000 and a large majority were thieves."

The consideration of the application was deferred until Friday next.

Geo. Bossi applied for a transfer of the license held by E. Escalet on the premises known as the French Hotel on Johnson street. Mr. Helmcken appeared for the applicant. The transfer was granted.

R. Ferguson applied for a transfer of the license held formerly by the late W. C. S. Seeley. Granted.

R. McDermott applied for a license to sell liquor at the corner of View and Quadra streets.

A petition in favor of granting the license was handed in, also a petition against it.

Mr. Hall contended that the notice required was not inserted in the press 30 clear days before the meeting of the court. The Bench decided that the application could not be considered.

Mr. Davie asked for a temporary license. It was a serious matter to the occupier and owner of the premises if anything is not done to allow the granting of a temporary license.

Justice Richards—I am opposed to granting licenses to grocery stores. Women sometimes receive their husband's wages and spend it in the stores.

Mr. Davie—Such things, I know, happen in Ontario; but you never hear of it in a well regulated city like Victoria.

Mr. Hall—Your Worships will notice that the petition against the license has more signatures than the petition in favor of granting it.

Mr. Davie—The signatures were obtained from Victoria to Nanaimo.

His Worship said he would consider the matter.

Supt. Sheppard said a number of saloons sell liquor to Chinese. The Telegraph Hotel sells liquor to a Chinaman with leprosy and the police dare not arrest the Mongolian on account of the fear of contagion. The Superintendent said Mr. Merryfield was present to explain for himself.

Mr. Merryfield said he was compelled to sell to Chinese because they obtain liquor from other houses when he refused to supply them.

His Worship the Mayor said he would be in favor of cancelling the license of anyone selling liquor to Chinese, or convicted in the Police Court on a charge of selling liquor to Indians. It was the duty of everyone to assist the police in suppressing the Indian liquor traffic. The police were doing everything in their power to stamp out the illicit traffic, and should receive the assistance of everyone in the community.

Mr. Merryfield said he received no notification from the police to refuse liquor to any Chinaman.

A number of applications for new licenses were withdrawn. The applicants neglected to comply with the law compelling them to give 30 days notice.

The Court then adjourned until noon on Friday next.

THE DOMINION.

The News From the East by Wire and Mail.

About a dozen Winnipeg merchants have been victimized by a man, calling himself Edward Campbell, presenting forged cheques over the signature of E. L. Drewey. In each case the cheque was fourteen hundred dollars and duly cashed.

Sergeant-Major Smith, of the Salvation Army, Montreal, dropped dead in the temple Tuesday while pleading with a man to get saved.

The Anti Jesuit convention, at Toronto closed Thursday at six o'clock. A provincial association was formed with Rev. Dr. Caven, chairman, S. C. Duncan Clark, treasurer, and E. D. Armour, secretary.

A section of the vigilance committee of citizens of Schubenack, N. S., formed to attempt the capture of burglars who blew open the post office safe and rifled it of its contents, came upon four strangers yesterday at some distance from the town, and ordered them to throw up their hands. They refused and the vigilants opened fire on them. One man was captured and confessed his crime.

Inducements to Emigrants.

The brilliant inducements offered by the emigrants' aid societies in England to people who wish to expatriate themselves have been referred to heretofore. The *Pall Mall Gazette* states that many have been induced to go to Buenos Ayres from both England and Ireland, upon the representations that they would receive land and houses free. Instead, however, they have met nothing but misery, want and starvation. English officials and residents in that country are overwhelmed with applications for assistance from the deluded and suffering emigrants.

TO THE TIMES ONLY.

Posting Indecent Pictures—Lord Cecil, the Evangelist, Drowned.

Judgment in the Higgins-Walkem Case—Royal City News, Etc.

[Special to THE TIMES.]

Toronto, June 14—Rev. Principal Grant, Moderator of the General Assembly, was banquetted last evening by the graduates of Queen's University resident in the city.

LORD CECIL DROWNED.

Kingston, June 14—Lord A. P. Cecil, the noted evangelist, was drowned at Adolphustime last night. He was out in a boat when the craft upset.

[The death by accidental drowning is announced of an evangelist in Ontario who was popularly called "Lord" Cecil. There is no such title as "Lord" Cecil, but there are Lord Eustace Cecil, a brother of Lord Salisbury, and three half brothers of his, whose names are all Cecil—with a Christian name prefixed. These are all courtesy titles and the bearers are not real lords. Similarly the family name of the Marquis of Exeter is Cecil, and it may be safely assumed that the gentleman just drowned is one of his brothers and is Lord ——— Cecil. He joined the Plymouth Fr thren in Ontario and preached for them and for any other Protestant sect, much in the style of the Salvation Army, for the last ten years. Not long ago he requested the Rev. Mr. Smith, a Presbyterian minister, now of Guelph, to baptise him by immersion, but the Presbyterian declined solely on the ground that the Church of England had performed the right of baptism satisfactorily in the nobleman's early life. However, later on he was baptised by immersion in the river Ottawa, either by the Plymouth Brethren or the Baptists.]

THE METHODIST CONFERENCE.

Toronto, June 14—The Methodist Conference opened its annual session yesterday. Rev. Dr. Hugh Johnston was elected president, and Rev. Dr. Stone secretary.

INDECENT PICTURES.

Winnipeg, June 14—Great interest is taken in the case at the police court now proceeding against the city bill poster, who is charged with posting indecent pictures for the Nellie Clay Variety Co. yesterday. Rev. O. Fortin and other clergymen were in the witness box and the evidence was of the most racy given.

SHOT A BAGGAGEMAN.

Toronto, June 14—W. H. Dickson, a Grand Trunk constable, refused to pay his fare on a Canadian Pacific train here. While being ejected by the conductor, he pulled a revolver and shot Baggageman McLaughlin seriously.

WALKEM-HIGGINS.

The Damages Reduced from $2500 to $500—The Verdict.

[Special to THE TIMES.]

Ottawa, June 14.—In the Supreme Court to-day the case of Higgins *versus* Walkem came up for judgment. It was decided that if Walkem agrees within two months to take $500 damages, reduced to that amount, then both appeals will be dismissed with costs. If he refuses, then the appeal from the judgment allowed with costs and a new trial will be directed and an appeal from the rule refusing non-suit dismissed with costs.

Chief Justice Ritchie did not agree with the other judges that the opinion of the plaintiff was only necessary to the acceptance of the $500, but held that the defendant should have been consulted as well. The damages, he thought unnecessarily severe. The supreme Court should not arbitrarily assess damages.

Justice Taschereau, in referring to the case, spoke strongly against the article. He said the libel was false, grossly malicious and wholly unjustifiable. The writer knew it was false, yet up to the present day he never possessed manhood enough to tender an apology. There was nothing more manly than for a man to apologize when he knew he was wrong. The defendant's conduct (Higgins) could not be defended.

Justice Strong was not present, but agreed with Justices Taschereau, Gwynne and Fourinier. It should be said that the Chief Justice also held that the mandamus was not withdrawn properly from the jury.

NEW WESTMINSTER.

Large Majority for By-Laws—Child Killed and Mother Injured.

[Special to THE TIMES.]

New Westminster, June 14.—The following is the result of the polls of yesterday: for street and park improvement by-law, ayes, 203; against, 40; for the water works by-law, ayes, 275; against, 32.

At Johnston's Landing yesterday, while waiting for the arrival of the steamer Gladys, Mrs. Terrisey, of Port Haney, and her four-year-old child stood on the bench close to the water's edge. As the steamer approached the shore the captain warned them of their danger, but they heeded him not. The child was knocked down by the boat and crushed into the sand and killed, while the mother was seriously injured, one of her legs being broken in two places. The body of the child was brought to this city for interment and Mrs. Terrisey was removed to St. Mary's Hospital. An inquest was held to-day on the child when the jury returned a verdict of accidental death.

Yesterday afternoon Herbert Kirkland, manager of the Deas Island cannery, was stabbed by a Chinaman in the breast. The victim fell to the ground bleeding profusely. He was removed to this city last evening for treatment and although the wound is serious it will not likely prove fatal. After committing the deed the Chinaman made an attempt to drown himself in the river but was quickly pulled out, however, and placed under arrest.

THE NANAIMO ELECTION.

Mr. Andrew Haslam Nominated and Returned by Acclamation.

[Special to THE TIMES.]

Nanaimo, June 14.—At the nomination of candidates to-day to fill the vacancy in the local legislature caused by the death of the HouseRobert Dunsmuir, Mr. Andrew Haslam (independent) was the only candidate proposed for nomination. Returning Officer Bray accordingly declared him duly elected.

Quick Work.

Schwabacher Bros. & Co., of Seattle, of which firm Mr. E. C. Neufelder, formerly of this city, is a partner, are again in full blast. The fire occurred on the 6th, and on the 11th—only five days after—the firm had $75,000 worth of goods in stock, which they were selling as fast as the clerks could dispose of them. We are glad to learn that the loss of this firm will be light, excepting by consequential damages.

A FERTILE VALLEY.

Rich Agricultural Lands Waiting to be Reclaimed by Dyking.

One of the oldest settlements on the Fraser river is Sumas. Situated on the south side of the river about 42 miles above New Westminster, a portion of the valley is included in the Chilliwhack municipality. It extends from the Fraser on the north to the American boundary on the south, a distance of about 18 miles with an average width of about 5 miles. The valley is subject to annual overflows from the Fraser river, more or less. The valley is nearly all prairie and the soil is made up from the accumulation of vegetable deposit that nature has supplied in such abundance that the soil is capable of producing any and everything that can be grown in a temperate clime and matures to the highest state of perfection.

This year we are favorably blessed with an extreme low water, consequently large areas of the prairie are not inundated and the virgin soil is showing a yield of vegetation that would be difficult to equal in any part of the world. The cattle roaming over the vast acres with grass standing around them reaching up to their bodies, are of a quality that will produce the best butter and beef that can be found anywhere.

But the valley must be reclaimed from the destructive overflow by a system of dyking before it can properly contribute to trade and commerce which it was destined by nature that it should. In the year 1878, a scheme was inaugurated by Mr. E. L. Derby, with the object of dyking, but as this gentleman proved to be more of an adventurer than a capitalist, the scheme fell through for the want of available funds. The Matsqui portion of said scheme was, however, completed by different parties investing their money in it, but through some defect in some portions of the work, it did not prove a success. However, about a year ago a new company was organized and the work rebuilt and repaired substantially, and we have reason to believe that this section of the work is all right and the land made available to a large number of settlers in producing agricultural commodities that are in demand in our markets.

This original scheme was subsidized by the Provincial Government with a grant of 45,000 acres of public lands over and above what the settlers were to contribute.

I firmly believe the time has arrived that an effort should be made to inaugurate a scheme to dyke the Sumas Valley. The settlers are anxious and willing to enter into any reasonable and practicable scheme at once, but they are not able to bear the whole burden of the expenditure that would be required, amounting to about $200,000. The natural enquiry would be would such a large expenditure pay? There cannot be any doubt about that, from the fact that about 25,000 acres of the richest kind of prairie land would be reclaimed, which under present circumstances is of very little use. These lands as soon as reclaimed "would at once be ready" for cultivation, for it does not have to be cleared or ditched, and would support and maintain thousands of a population where there are only a few scattering settlers at present and at the same time would cause an additional life and vitality to our commercial industry that would be felt throughout the whole province. In another letter I will endeavor to show why the Dominion and provincial governments should foster and encourage reproductive enterprises of this nature by either money or land subsidies or both.

TELESCOPE.

SPORTING NEWS.

Faulkner's Challenge Accepted—Boxing—The Wheel.

Jimmy Hucker, champion boxer of the fleet, has accepted Faulkner's challenge. The latter offered to forfeit $50 if he failed to throw any man in 20 minutes, catch-as-catch can.

BOXING MATCH.

Scotty Cox and Joe Howard will box to-night at Philharmonic Hall.

Prof. Foster and the Irish Giant will have a boxing match for points this evening.

BICYCLING.

The Island Wanderers took a spin through the city last evening on their wheels.

WRESTLING.

Matsada Sorakichi, the famous Japanese wrestler, will arrive from the Sound this evening and meet Jimmy Faulkner another noted wrestler, at Philharmonic Hall to-morrow night. The bouts will be more of an exhibition than anything else. Cleary and McCann will also spar.]

BASEBALL.

The new grounds of the St. Andrew's and Caledonian Society have been put into fair shape for playing on, and they are to be opened to-morrow by the Victoria Baseball League. The game promises to be very interesting. The James Bays, under the management of President Wolfenden and Captain Jackson, have been made a very strong team, while Manager Edwards has succeeded in forming an aggregation in the Maple Leafs hard to beat. Mills and Tait will be in the points for the Maple Leafs and "Old Reliable Jack" will do the twirling and Hannan the receiving for the Bays. The League pennant will be floating on the breeze and altogether a great game is anticipated. For years the boys have been playing on the Hill and footing the bills themselves, and now it is hoped that the games will be well patronized, and they will have a chance to make their expenses out of them. The following are the names and positions in tomorrow's game:

JAMES BAY.	POSITION.	MAPLE LEAF
Hannan	Catcher	Tait
Jackson	Pitcher	Mills
Wishart	1st b	Meldrum
Wilkinson	2d b	Burnes
Franklyn	3d b	Clyde
Quay	s. s	G. Gutson
Smith	l. f	Duck
George	c. f	Beckingham
Taylor	r. f	Jackson

Game to be called at 2:30 p. m. Umpire, Thos. H. Baker. The game will be commenced by the President of the Society pitching the first ball and the President of the League catching it. This will be the seventh game of the season, each club equal so far. This is how they stand:

	Won.	Lost.	Games Played
James Bays	1	2	3
Maple Leafs	2	2	4
Mayflowers	2	2	4
Totals	5	6	11

THE WHEEL.

W. J. McKay arrived down on this afternoon's train from Shawinigan, to which point he had come from Nanaimo on a bicycle. He met much dust and rough roads and the bicycle shows the effects of heavy wear.

A Gritty Tory.

A meeting of the electors of North Lanark was held at Pakenham village to discuss the Jesuits estates question. Rev. Dr. Armstrong of Ottawa was present and spoke against the Jesuit bill. Mr. Jamieson, M. P. for the riding, made a speech stating that he was unavoidably absent when the division on Colonel O'Brien's motion was taken in the House of Commons, but that had he been present he would have voted with the government. He defended the course of Sir John Macdonald in rejecting the Jesuit bill, but notwithstanding his opposition resolutions commending the action of the "Noble Thirteen" were carried

GOVERNMENT ROADS.

The Colonist is undertaking to defend the Government's wagon road policy. It has a subject as fruitful for argument as the Robsonian land swap. A great deal, however, may be said in favor of the Government wagon road policy, but it should be borne in mind at the same time that it is not possessed of the particular virtues CAESAR thought should belong to his wife. Let us point out a few instances. On the left bank of the Spallumcheen river there is a wagon road built by some Government, we don't know which one; possibly Mr. BEAVEN built it. But it makes no difference who built it, we denounce it. There never could have been an intelligent motive at the bottom of its construction. On the other bank of the river is a highway connecting Sicamous with Enderby. This road was sop to CERBERUS, a road built for the purpose of soothing Spallumcheen over the failure of the Dominion Government to subsidize the Shuswap and Okanagan Railway. This road cost $14,000, and the money might just as well have been thrown into the street. The primary purpose of this road, it is alleged, was to give the Columbia Milling Co. access to Sicamous during the winter months. The slightest reflection must have shown to the government the fallacy of such an enterprise for the purpose of freighting flour. The margins on profit nowadays on flour have been so narrowed down that freighting by team is impossible. The government should have known it, and they should have had the moral courage to decline to build the road under the circumstances. If this road is open to travel we dont know it. Such was not the case last summer and we doubt if it is now. The winter after the road was finished, getween the land slides, wind falls and snow drifts it was impassible and the fact that the government did not have, nor never has had, a force at hand to keep the road clear is as good proof as any body could ask that they were not sincere in the first place. If the government has done anything special towards making the Toad mountain district accessible such has never been reported, and indeed so supine have been the Government's actions in this respect that we might well suspect that they were interested in booming Spokane Falls. It is idle to plead ignorance and to insist that Toad Mountain was too imperfectly developed to warrant the building of an highway to it. It wont do. The best judgment in the Province had passed opinion on Toad Mountain, pronouncing it a rich mineral district. Between private interests and pessimism, to which we may add a large modicum of gross incompetency, the Government did nothing, nor will it ever; you cannot get out of men what is not in them. As to how much assistance a Government should give a country to promote development depends upon circumstances. The circumstances peculiar to this province in relation to the granting of subsidies admits no argument. Covering a vast area there are portions which must be helped or remain undeveloped. Circumstanced like British Columbia, the Government is responsible where progress is slack. But it is of no use to discuss this question. The inability of the Government to rise equal to the occasions presented is on everybody's tongue and requires no further ventilation. Facts are facts. Dead wagon roads are not to be resuscitated and turned into political ammunition for the Government by newspaper sophistry. The people will settle the matter some of these days for themselves.

THE NEW EASTERN CONNECTIONS.

A week ago on Monday the first train over the Short Line left Montreal for Halifax, completing the distance in twenty-seven hours. This line will be a competitor with the Intercolonial, the earnings of which it may tend to reduce. Passengers who are in a hurry will, of course, go by the short way. That the new line will create business for itself is beyond doubt; its shortness and its connection with the C. P.R. will both tend to insure that result. The extra business will accrue to the benefit of Halifax, whose rising property will be still further enhanced. It is impossible not to believe that Halifax has a great future before it. The period of gloom and comparative disaster through which it has passed may, we believe, be considered as closed. It possesses one of the finest harbors on the continent, and one that is open at all seasons of the year. The terminus of a transcontinental line, and within easy reach of the West Indies, it must become a great, populous, and opulent city within a reasonable space of time.

On the same day the distance between Montreal and St. Paul was reduced 130 miles by the opening of the Canadian Pacific Sault Ste. Marie route. It is this competition and such as this that is causing the uneasiness among American railway managers which is showing itself in hostile moves in Congress and before the Interstate Commission. The service of the new line will be first-class, the time occupied between St. Paul and Montreal being about fifty hours. As a railroad centre Montreal now occupies a position second on the continent only to New York and Chicago, and not greatly behind even these great cities. She has practically absorbed the whole trade of Quebec, the second province of the Dominion, and does a good share of the business of the other provinces. In the undeveloped Northwest her merchants and capitalists have established a footing that will strengthen them in the struggle for the control of that new country. Halifax brought within reach of St. Paul in seventy-four hours and thus in close touch with the great Northwestern systems must benefit greatly by the new connection, which benefit will be enhanced by the establishment of a fast Atlantic service. A renewed era of prosperity appears to be dawning on the eastern cities, in which we are happy to congratulate them. In Halifax, situated at the extremity of land on the Atlantic, we find conditions much resembling those of Victoria, excepting that her possibilities for local extension of traffic are only in the hundreth degree as compared with ours. Through her trying times she has always endeavored to control the water routes and has thus built up large mercantile and marine interests.

INTELLECTUAL LIBERTY.

GIORDANO BRUNO was a very bad man. He did not believe in churches of any kind whatsoever. In his philosophy there was but one fundamental principle, one substance whose existence was real and original. God and the universe were identical. The universe was infinite. The man was not an infidel, that is plain; he simply found himself unable to subscribe to the dicta of the church. For this offence he was burned at the stake in February, 1600. The fact of the Catholic church cremating him is nothing; the Calvinists of that period would have incinerated him could they have gotten him in their clutches. BRUNO's doctrine was as repugnant to one church as another, and at that time Protestantism as well as Catholicism was in the habit of subjecting heretics to the fire test. Well, BRUNO has had a monument erected to him. Enlightened Italy, after nearly three hundred years, has recognized his merit. Thirty thousand people gathered round to see his monument unveiled. Speeches were made and one speaker expressed himself quite forcibly. Deputy BOVIO (he was the orator) was moved to speak in the language he did on account of the attitude of the Pope, who forbade his congregation from attending the ceremony. Our purpose is not to find fault with the Pope for making this protest. In the Pope's place, believing what he believes, we would do the same thing. It was a matter of conscience and of duty with the Pope. Comment so far as he is concerned is superfluous. The fact, however, that 30,000 people were present at the unveiling ceremony is significant. We shall not say that disobedience to the Pope's command presages the downfall of religion, because there will always be religion. It does, however, signify that approval that men have for intellectual liberty, their growing dislike to all trammels save those which are inseparable from social order and progress. Is this feeling the offspring of hardness of heart, ungodliness? We cannot believe that it is. We believe that men, as a class, are as reverent as they ever were; they simply propose that they shall be permitted to think, and to say what they think, let it be for good or bad. The learned doctors of the church hold that men cannot think aright; that guidance, aye force, is sometimes necessary to keep men in the straight but narrow path. We are not prepared to oppose this proposition, in toto at least. We sometimes think when we hear that men have disregarded the dictum of THE TIMES that they are either very stupid or very perverse, and the idea of coercion asserts itself. Yet, for all, since we like to think as we like and talk as we like, we say to ourselves, the fault be on their heads. We remember that "He who complies against his will is of the same opinion still." We would not force JOHN ROBSON nor the NEWS to our way of thinking. If they are content to remain in their ignorance let them; the former will lose votes by it, and the latter subscribers. But this is making light of a serious subject—this injecting into it the Provincial Secretary and the News. But is this desire for intellectual liberty the effect of evil? As we cannot keep our thoughts, as we are bound to think whatever our restraints, it looks to us as if our thoughts were given us for the purpose of thinking, and if such be true, it not only is our duty to think, but to make our thoughts known. A man just started to write a story may not have a definite notion of all the incidents, and how it is going to end. He continues to write, however; ideas multiply, incidents present themselves, and finally the narrative resolves itself into a complete creation. Just so with the tinker and the tailor, and the candlestick maker. If they think, and keep on thinking, they are bound finally to build up a fabric of belief, and to pin their faith to it. If the tinker keeps his thoughts on his profession he is almost sure to make a successful tinker. The tailor and the candlestick maker are in the same category. Thought is very necessary to the attainment of the truth, and hence to circumscribe thought is to set the ball of retrogression moving.

CRIMINAL STATISTICS.

Under our judicial system, says the Montreal Witness, petty offences against good morals and good order are disposed of by summary process, and although the ratio between the number of the inhabitants of any Canadian city and the number of summary convictions taking place within it annually may not furnish a very trustworthy basis by which to gauge its morality as a community, yet it should measure, not without accuracy, either the standard or order of the community or the efficiency of its police force. The volume of criminal statistics for 1887, recently published, shows that the number of summary convictions to every one thousand of the population of the following cities and towns was: In St. Hyacinthe, 3.14; Hull, Que., 7.20; Three Rivers, 7.70; Sorel, 8.71; Sherbrooke, 15.75; Halifax, 17.07; Guelph, 17.55; Chatham, 20.97; Quebec, 26.69; St. Thomas, 27.16; Ottawa, 27.90; Montreal, 28.27; St. John, N. B., 28.63; Belleville, 29.49; Charlottetown, 29.70; Kingston, 29.94; Fredricton, 30.42; London, 34.42; Peterboro, 35.43; Windsor, 37.98; Brantford, 38.74; Toronto, 39.17; Winnipeg, 39.23; Victoria, 41.16; Woodstock, 44.60; Hamilton, 55.17. That there should be but 8.71 summary convictions per one thousand inhabitants in Sorel, and 44.60 per one thousand in Woodstock are most extraordinary facts, for the population of Woodstock is a permanent one, prosperous and well-to-do, while in Sorel there is a considerable floating population. It is probable that in Woodstock the police force is an efficient one, and a large proportion of the convictions are for violations of the civic by-laws. Even allowing that these causes account for a larger proportion of convictions in Ontario than in Quebec, the difference between the relative number is surprising. The highest ratio in Quebec is that of Montreal, 28.27 per thousand; the highest in Ontario is that of Hamilton, 55.17 per thousand. The lowest ratio in Quebec is that of St. Hyacinthe, 3.14; in Ontario, St. Thomas, whose ratio is 17.55, has that honor. Toronto, "the good," has a ratio of 39.17, while wicked Quebec has a ratio of only 26.69.

EDITORIAL NOTES.

Latest advices from Honolulu state the amount of money deposited in the savings banks and from there converted into the national treasury is rapidly increasing, and has assumed such proportions that the government is studying best how to invest it. What a haven the Kanaka kingdom would be to politicians tinctured with Robsonism.

The Seattle fire has set other cities to thinking whether they are prepared for a conflagration with the elements against them. San Francisco feels insecure, and the chief of the fire department openly declares his inability to cope with a large fire well underway. Portland boasts of an efficient department, but when it is considered the expense of maintaining the same is the largest item of Portland's municipal expenditure, the cardinal principle of good municipal government—safety to persons and property—stands out in bold relief.

SYRUP of FIGS

A Pleasing Sense of Health and Strength Renewed, and of Ease and Comfort

Follows the use of Syrup of Figs, as it acts gently on the KIDNEYS, LIVER & BOWELS Effectually Cleansing the System when Costive or Bilious, Dispelling Colds, Headaches and Fevers and permanently curing HABITUAL CONSTIPATION without weakening or irritating the organs on which it acts.

AYER'S Sugar-Coated Cathartic PILLS.

If the Liver becomes torpid, if the bowels are constipated, or if the stomach fails to perform its functions properly, use Ayer's Pills. They are invaluable.

For some years I was a victim to Liver Complaint, in consequence of which I suffered from General Debility and Indigestion. A few boxes of Ayer's Pills restored me to perfect health.—W. T. Brightney, Henderson, W. Va.

For years I have relied more upon Ayer's Pills than anything else, to

Regulate

my bowels. These Pills are mild in action, and do their work thoroughly. I have used them, with good effect, in cases of Rheumatism and Dyspepsia.—G. F. Miller, Attleborough, Mass.

Ayer's Pills cured me of Stomach and Liver troubles, from which I had suffered for years. I consider them the best pills made, and would not be without them.—Morris Gates, Downsville, N. Y.

I was attacked with Bilious Fever, which was followed by Jaundice, and was so dangerously ill that my friends despaired of my recovery. I commenced taking Ayer's Pills, and soon regained my customary strength and vigor.—John C. Pattison, Lowell, Nebraska.

Last spring I suffered greatly from a troublesome humor on my side. In spite of every effort to cure this eruption, it increased until the flesh became entirely raw. I was troubled, at the same time, with Indigestion, and distressing pains in

The Bowels.

By the advice of a friend I began taking Ayer's Pills. In a short time I was free from pain, my food digested properly, the sores on my body commenced healing, and, in less than one month, I was cured.—Samuel D. White, Atlanta, Ga.

I have long used Ayer's Pills, in my family, and believe them to be the best pills made.—S. G. Darden, Darden, Miss.

My wife and little girl were taken with Dysentery a few days ago, and I at once began giving them small doses of Ayer's Pills, thinking I would call a doctor if the disease became any worse. In a short time the bloody discharges stopped, all pain went away, and health was restored.—Theodore Ealing, Richmond, Va. ††

Ayer's Pills,

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Dealers in Medicine.

ROYAL HOSPITAL PROPERTY

FOR SALE BY TENDER.

PURSUANT TO AN ACT PASSED AT THE last session of the Legislative Assembly of British Columbia, entitled "An Act to authorize and facilitate the sale of the site of the Royal Hospital, with the buildings thereon," the Directors of the Royal Hospital invite sealed tenders for the purchase of so much of the lots known and numbered on the official map of Spring Ridge as Sections 24, 25, 26 and 27, Spring Ridge in the City of Victoria, as is authorized by the said Act to be sold, being the present site of the Royal Hospital, with all improvements thereon, and containing five acres, more or less.

Tenders must be accompanied by a certified bank cheque for one thousand dollars; the balance of purchase money which shall be payable as may be agreed on, shall bear interest at the rate of 5 per cent. per annum, and shall be secured in a manner satisfactory to the Directors.

For Plan of Property and further particulars apply to J. Stuart Yates, Hon. Secretary, to whom the tenders marked "Hospital Site Tender," must be addressed and sent in on or before 12 o'clock noon on the 21st day of June, 1889.

The highest or any tender not necessarily accepted.

SAN FRANCISCO NOTES.

Advance in Coal—Excursion to Alaska—Wedding.

San Francisco, June 11—Eight cars of California school teachers left for the East to-day via the Union Pacific and Wabash railways.

The wedding of Miss A. M. Lathrop, sister of Mrs. Leland Stanford, to David Rowe, of this city, was celebrated at noon to-day at the residence of Senator Stanford. The couple go to San Jose to-day, and leave for the East Thursday in Senator Stanford's private car.

A party of sixty-six excursionists left this city to day on the Raymond-Whitcomb trip to Alaska. Charles H. Wilson and F. T. Whitcomb are in charge of the excursionists, who will leave Tacoma on the specially chartered steamer Corona, June 17th. Of the sixty-six travellers, six are San Franciscans. All of the others are from the East.

An evening paper says: The present outlook for the coal market is indicative of a rise of at least 50 cents a ton on all foreign and domestic coals within the next week. The principal reason for the rise in the prices of local coal is due to the Seattle fire. The destruction of the coal bunkers there means the curtailment of the shipment of domestic coal. The daily consumption of coal here is figured at three thousand tons, and the supplies on hand at present are inadequate to the demand. The fire also interfered with the shipments to this port from the Black Diamond mine, and on top of this comes the announcement that Nanaimo coal has advanced 25 cents and that a still further advance is expected. The Pacific Improvement Company's steamer San Mateo arrived from Nanaimo this morning with one of the largest cargoes of coal ever brought to this port, 4257 tons.

THIS MORNING.

Summary of European Dispatches—Germany and Switzerland.

London, June 13.—The Kreuzzeitung, commenting on the Samoan protocol, says that it is not of the slightest importance to Germany who reigns in Samoa. The chief point which the German delegates had to consider was that proper provision for the safety of the lives and property of German subjects be secured for the protection of German interests.

At the races yesterday at Rollerbeek, in Hanover, the crowd became so excited that they pushed one another into the course, many were run down by the racers and four were killed.

The governments of Russia, Germany and Austria have sent an identical note to the Swiss government asking the latter to deal in a more severe manner with anarchists and socialists.

The board of trade has instituted an inquiry into the Armagh disaster. The total number of deaths is 78. The Queen has sent a message of sympathy to Armagh.

The will of the late Carl Rosa has been entered for probate for bequest aggregating £7,800.

Liverpool, June 13.—The City of New York sailed out her crew and sailed for New York to-day.

Armagh, June 13.—The clergymen of Armagh, of every religious denomination met to day and organized a relief for the sufferers of yesterday's accident. The Protestant primate presided. The Catholic archbishop urged the people to give liberally.

Paris, June 13.—A shocking tragedy has occurred at Toulouse. A farm laborer named Rougnet, who was employed by Farmer Sorin, in revenge for being dismissed, killed Sorin, his wife and daughter and other persons living on the farm.

Berlin, June 14.—It is reported here that the German government will not break off diplomatic relations with Switzerland on account of the expulsion from Switzerland of the German police inspector. It is the consensus of opinion that the incident is closed, but that Germany may perhaps apply vexatious questions in regard to frontier regulations.

Berlin, June 13.—The Empress Frederick and her daughters will visit Potsdam on Saturday on the anniversary of Emperor Frederick's death.

Poverty in India.

I had always looked upon India as a rice-eating country, says Frank Carpenter, but I find that a great number of the people eat wheat and grain. In Northwestern India only about 10 per cent. of the people eat rice, and in the prison at Agra I found that the prisoners were fed upon grain. Everywhere the mass of the people seem to be underfed, and the leanest, scraggiest specimens of humanity I have ever seen I find in this rich valley of the Ganges. Where nature has done everything the people are starving, and you can have no idea of the skin and bone men and boys, whom I see daily by the thousands. The costume of the people is such that the arms and legs, and often the breasts and waists, are bare. There seems to be nothing but skin, bone and sinew, and the average thigh is not bigger than a muscular American bicep. There are no calves whatever, and the joints at the knees and ankles are extraordinarily large. Nearly every man you meet, if he be poor, has wrinkles in his belly, and at every railway station you find gaunt, dark-faced, pitious lean men, who slap their bare stomachs to show that they are hollow and ask for backshish. Wages are miserably low. Farm laborers get from six to eight cents a day and masons get about 10 cents a day. Even travelers, who have to pay the highest wages, can get good English-speaking servants who will travel with them and feed themselves for 33 cents a day, and less than that if taken by the month.

This valley of the Ganges has more people than it can support, and it is probably the most densely populated part of the world. The people live in villages, and the average country town consists of one-story mud huts too poor and illy ventilated for American pig-pens. You would not think of having such outhouses as the residences of the majority of this vast population would make, and in a large part of India, and especially in the best part of this Ganges country, the holdings average from two to three acres apiece. At four to the family this represents a half acre per person, or over twelve hundred persons per square mile. When it is remembered that these people live by agriculture it will be seen that their condition is far worse than that of China or any part of Europe.

Boys, Don't Swear.

1. It is mean. A boy of high moral standing would almost as soon steal a sheep as to swear.

2. It is vulgar. Altogether too low for a decent boy.

3. It is cowardly—implying a fear of not being believed or relied on.

4. It is ungentlemanly. A gentleman, according to the dictionary, is a genteel man—well-bred, refined. Such a man will no more swear than go into the street to throw mud with a chimney sweep.

5. It is indecent, offensive to delicacy, and extremely unfit for human ears.

6. It is foolish. "Want of decency is want of sense."

7. It is abusive—to the mind that conceives the oath, to the tongue which utters it, and to the person at whom it is aimed.

8. It is venomous, showing a boy's heart to be a nest of vipers; and every time he swears one of them sticks out its head.

Syrup of Figs

Produced from the laxative and nutritious juice of California figs, combined with the medicinal virtues of plants known to be most beneficial to the human system, acts gently, on the kidneys, liver and bowels, effectually cleansing the system, dispelling colds and headaches, and curing habitual constipation.

Cutlery.

M. & H. A. Fox have just received direct from Sheffield a large stock of table and pocket cutlery, scissors, etc. Shaving outfits a specialty. Call and examine at 78 Government street.

The Mayor's Remuneration By-Law.

Whereas under and by virtue of the Municipal Act, 1889, it is enacted that the Council of every Municipality may from time to time make alter or repeal By-Laws for fixing alla paying the Mayor out of the annual revenue a sum of money not exceeding $2000;

Be it therefore enacted by the Municipal Council of the Corporation of the City of Victoria as follows:—

1. There shall be paid to the Mayor for the time being of the said City of Victoria out of the annual revenue of the said City the sum of two thousand dollars ($2000.00).

2. This By-Law may be cited for all purposes as the "Mayor's Remuneration By-Law, 1889."

Passed the Municipal Council, the 23rd day of May, A.D. 1889.

Reconsidered and finally passed the Council, this 12th day of June, A.D. 1889.

(L. S.) JOHN GRANT, Mayor.
WELLINGTON J. DOWLER, C.M.C. jel2

MUNICIPAL.

American Sun Worshippers.

Lieut. Schwatka has been very successful in his exploration, especially in Southern Chihuahua. There living cave and cliff dwellers were found in great abundance, cliff dwellers of Arizona and New Mexico. It was almost impossible to get near them, so wild and timid were they. These cave dwellers are sun worshippers. They throw their new born children out in the full rays of the sun. They are usually tall, lean and well formed. Their color is a blackish red, nearer that of the negro than that of the Indian. Schwatka thinks his investigation will be of immense anthropological and archæological value. He estimates the cave and cliff dwellers number 3,000 to 12,000. They are armed only with bows, arrows, and stone hatchets.

CITY AND PROVINCE.

—New York papers speak of a fish combine. It must be hash.

—For Constipation, Sick or Bilious Headache, use Dr. Pierce's Pellets or Antibilious Granules. Purely vegetable. One a dose.

—The only disadvantage of an honest heart is credulity.

—Ill-fitting boots and shoes cause corns. Holloway's Corn Cure is the article to use. Get a bottle at once and cure your corns.

—The first snake was seen by a woman. Men have been seeing snakes ever since.

—If your children are troubled with worms, give them Mother Graves' Worm Exterminator; safe, sure, and effectual. Try it, and mark the improvement in your child.

—Two people who plan to tie themselves together by a particularly quiet marriage are generally most talked about.

—O. E. Comstock, Caledonia, Minn., writes:—"I was suffering the most excruciating pain from inflammatory rheumatism. One application of *Dr. Thomas' Eclectric Oil* afforded almost instant relief, and two bottles effected a permanent cure."

—O'Donovan Rossa doubtless expects to be found at the bottom of the Cronin murder case. George Francis Train has not yet spoken.

—What Toronto's well-known Good Samaritan says: "I have been troubled with Dyspepsia and Liver Complaint for over 20 years, and have tried many remedies, but never found an article that has done me as much good as Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure." CRANA E. POWELL.

—A Minneapolis man has written a poem on the Chicago girl's foot. He might have written a handbill on it, a foot long.

—Among the pains and aches cured with marvellous rapidity by *Dr. Thomas' Eclectric Oil*, is ear-ache. The young are especially subject to it, and the desirability of this Oil as a family remedy is enhanced by the fact that it is admirably adapted not only to the above ailment, but also to the hurts, disorders of the bowels, and affections of the throat, to which the young are especially subject.

—Young men should not depend upon the government alone for fat places. There may be openings for them in a tallow factory.

—There is a wide difference between medicines which affect merely the symptoms of disease and those which affect its cause. The first are useful as palliatives, the second, if of genuine efficacy, produce a radical cure. To the latter class belongs Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure. Thoroughness of operation is its special attribute in all cases of Biliousness, Costiveness, Indigestion, Kidney Complaints and Female Weakness.

An Unhappy Home.

"I wish my wife would get well or—*something*," said a husband who had been sorely tried with an invalid wife. It seems a heartless speech, but who can tell the discomforts of a home where the wife is always sick. Poor food, crying children! No wonder the man grows desperate. But if he could get Dr. Pierce's Favorite Prescription for the wife, he would find that the sunshine would return to his home. "Favorite Prescription" is a positive cure for the most complicated and obstinate cases of leucorrhea, excessive flowing, painful menstruation, unnatural suppressions, prolapsus or falling of the womb, weak back, "female weakness," anteversion, retroversion, "bearing down" sensations, chronic congestion, inflammation and ulceration of the womb, inflammation, pain and tiredness in ovaries, accompanied with "internal heat." Je-13-2t.

THE BRITISH COLUMBIA FIRE INSURANCE COMPANY.

TAKES RISKS ON THE CASH OR MUTUAL PLANS.

As this is a Home Company, organized by British Columbians for the two-fold purpose of giving cheap insurance and keeping the money in this Province, it commends itself to the support of every patriot desiring the prosperity of this country.

In Ontario, the system of insurance, which is similar to that adopted by this Company, has been a highly successful operation for the past fifty years, and it has proved to be a great advantage to every insurer in it, by reducing the cost of insurance, and it is estimated that over three-fourths of the insurance effected in Ontario is carried by mutual companies.

News of the City and Province Briefly Told.

—Ice Cream at Stelle's.

—Zylonite collars and cuffs at Daley's 111 Government street.

—A special meeting of the Board of Aldermen this evening.

—The Vancouver Island Building Society will hold a drawing this evening.

—"Hose patches," a sure cure for leaky garden hose, at McLennan & McFeely's.

—A marriage license has been issued to William James Ince and Ellen Edith Cooper.

—About seventy-five Alaska excursionists drove around the city and suburbs this morning.

—A carload of stoves to select from at McLennan & McFeely's, opposite the "Poodle Dog."

—Ice cream delivered to all parts of the city. New England Bakery. Telephone call 161.

—The schooner C. H. Tupper has been chartered to load telegraph wire for the Sandwich Islands.

—"Lignomur," the latest and most artistic wall decoration, at John Weller's 51 to 55 Fort street.

—The marriage of Miss M. Eno and Mr. John Horrobin, both of Wellington, took place yesterday at Nanaimo.

—The Nanaimo City Council has donated $150 to the Seattle fund. Private subscriptions amount to about $500.

—June issue, British Columbian Magazine, is at bookstores and Daily's Bazaar. Everyone should buy this handsome number. 1mo.

—The bark Bowers, which has just come out of the dry dock, will load lumber on Puget Sound for South America.

—Look out for the advertisement of sale of lots in the town of Seattle, at Mission Bridge, B. C., on June 15th, by F. G. Richards, Jr. *td

—If the corporation carpenter would carefully examine the sidewalks in every direction, he would find that a few nails would be of great use.

—Visitors before leaving for home should have their photos taken at Hall & Lowe's, Government street, where they are sure to get the best.

—The regular quarterly meeting of the Y. M. C. A. will be held this evening, when reports from the directors and committees will be presented.

—The Ancon arrived early this morning from the Sound, and left this afternoon for the north. Five tons of fresh meat were taken on board here.

—Personal. If that lady will again call at the Lansdowne House, Yates street, she will find the *Hat* required, as Partridge has just received six dozen direct from New York. *2w

—The steamer Potter was delayed three hours in coming over from the Sound yesterday. The steamer was obliged to go up to Irondale to obtain fresh water for steaming purposes.

—A carload of Antique Oak Bedroom furniture, latest designs, handsomely carved, also Walnut Roll Curtain and other office desks, just received by John Weiler 51 to 55 Fort street.

—Mr. C. E. Riggins, Beamsville, writes: "A customer who tried a bottle of Northrop & Lyman's Vegetable Discovery says it is the best thing he ever used; to quote his own words, 'It just seemed to touch the spot affected.' About a year ago he had an attack of bilious fever, and was afraid he was in for another, when I recommended this valuable medicine with such happy results."

—A concert and organ recital will be given in Calvary Baptist Church to-morrow (Tuesday) evening, commencing at 8 o'clock. A first class programme will be rendered, including instrumental solos by Prof. Sharpe on the new Grand Estey church organ lately purchased from the manufacturers through their Victoria agents Messrs M. W. Waitt & Co. Admission 25 cents.

CANDY MAN ARRESTED.

Charged With Enticing Marines to Desert from the Navy.

For some days past a man named Henry Young has been seen on the street selling candy. The individual carried a tray strapped over his shoulders and a small ramp chair on his arm. He usually stood on the corner of Government and Yates streets and vended his toothsome candy to the small boys. Last evening he was arrested by Officer Lindsay on a charge of attempting to induce a sailor named O'Neill to desert. In the police court this morning the charge was read and the defendant stated that he denied the charge. Supt. Sheppard said it would be necessary to ask for a remand to obtain the evidence of O'Neill, a marine on H. M. S. Amphion with four other marines. The defendant said he was ill and would not like to remain in gaol. His Honor informed the man that he was liable to a fine of $200 or imprisonment for six months if he was found guilty of the charge preferred against him. Young was remanded until to-morrow; bail was fixed at $400. Supt. Sheppard said the man was a nuisance on the streets and it was necessary to send a policeman to the public school to drive the man away.

PERSONAL.

Items Telling of Movements of Well Known Persons.

F. Bourchier has gone to Harrison's and Banff for a two weeks' holiday.

O. B. Gillett, a mining expert of San Francisco, left here this morning for Nicola, to inspect the mines there in the interest of an English syndicate.

T. C. Atkinson, of New Westminster, is in the city.

Sir George Stephen, ex-president of the Canadian Pacific railway, has purchased Lord Chesham's beautiful seat in Buckinghamshire. He will entertain in royal style.

G. B. Wright arrived from Kootenay last night.

Miss Jennie Cooper, of San Francisco, sister to Geo. A. Cooper, arrived last night. The young lady is well known in Victoria. She goes to Alaska on a tour.

E. H. Port one of New Westminster's most enterprising young men is in the city.

N. D. Rideout and wife were passengers for Alaska to-day. Mr. Rideout is a wealthy resident of Marysville, Cal., and recently disposed of his railway line between Marysville and Oroville to the Southern Pacific for a fortune. He was here long enough to be favorably impressed with what he saw and the splendid cuisine of the Driard.

OPEN AIR RELIGION.

To the Editor of The Times:

Sir,—The right of public speech "in open spaces" is admitted in the United Kingdom. No one would ever dream of stopping the meetings organized by the political and religious parties on Sunday in Hyde Park. The same may be said of all our "open spaces." Glasgow Green, in Scotland, on Sunday is the scene of thousands, who go to their respective open air meetings. The same may be said of Ireland and Wales. Every village green in England is perfectly free in this respect. At Ramsgate, which is a seaside resort, we have our open air meetings on the sands every day during the summer, and on Sunday we have our open air meetings, which attract thousands of the better class of visitors. All the work done by the "Christian Evidence Society" is done in the open air.

If the Mayor and Aldermen admit open air meetings in the streets, which they do, I cannot see how they can honestly refuse the meetings in the park. There is room enough for 100,000 people to attend meetings in the park without interfering with the individual right of any one. I trust that they will reconsider the matter and not be behind Ireland in this respect. F. Joseph Sennett.

Victoria, June 14th.

Midsummer Examination.

The examination of scholars attending St. Ann's School will be held at the Convent on Humboldt street next Thursday morning.

Saanich Picnic.

The annual basket picnic of the farmers of North and South Saanich will be held on the 1st of July, Dominion Day, at Sand Hill, South Saanich. Every person is welcome. No charge.

Naval.

It is understood that the men-of-war Swiftsure, Amphion and Icarus will leave Esquimalt on Monday next for Vancouver, whither they will remain till the day after Dominion Day, when they will sail for Alaskan waters. H. M. S. Champion will remain at Esquimalt during the absence of the other vessels.

A Chinaman Escapes.

On Thursday afternoon a Chinaman escaped from a provincial police officer. The Celestial was on the way to the provincial gaol, from the steamer Sardonyx, to serve out a sentence for selling liquor to Indians, when he broke away from the officer and disappeared in the slums of Chinatown.

Prospective.

At the Driard House this evening Miss Lizzie Richardson, one of Nanaimo's most charming daughters, and Mr. J. McLean, of Vancouver, will be united in marriage. The principals and a number of intimate friends arrived in the city yesterday and are registered at the Driard. Mr. J. Abrams of Nanaimo came down to-day to be present at the ceremony.

Around the Island.

The steamer Sir James Douglas sailed at 1:30 o'clock this afternoon for the different Indian settlements on the shores of Vancouver Island. Hon. P. O'Reilly, Indian Commissioner, and Assistant Commissioner A. H. Green were passengers on the steamer. The voyage will occupy six weeks time. The vessel will call at Skeena River, Queen Charlotte Island and other places.

The Water Supply.

Workmen on the 16-inch main are near the lake, and Water Commissioner Summerfield expects to furnish the city with an increased supply of water before the 10th July. New hydrants, for fire purposes, were placed in connection with the Cook street main on several streets, and the increased pressure will supply residences of that portion of the city lying east of Cook street with an abundance of water. At present the people are complaining of the waste in the lower portion of the city. C. W. Wallace, the water inspector, is already at work preventing the waste in various portions of the city.

The Last Rites.

The funeral of Jane Augusta, beloved wife of the Hon. A. P. Pemberton, interred this afternoon, leaving the family residence, Glenville, at 2:30 for the Reformed Episcopal Church where divine services for the dead were conducted by the Rev. Bishop Cridge, a life long friend of the deceased lady. A large concourse of friends and relatives were present to pay their last respects to one who was highly esteemed in life for her many enobling qualities. The pall bearers were: Sir Matthew Baillie Begbie, Hon. Justice Crease, Hon. A. N. Richards, R. E. Jackson, John Tratch, M.W. Tyrwhitt Drake, Q. C., A. J. Langley and A. A. Green.

Freight Receipts.

Freight arriving by the Islander last night comprised 100 bbls. sugar, 94 pkgs. groceries, 1 carload wrapping paper, 18 tubs butter, 8 cases leaf tobacco, 47 cases dry goods, 7 cases hardware, 12 cases stationery and 1 car load of whiskey.

Freight arriving by the steamer Potter last night comprised 76 bbls. whiskey, 1 carload furniture, 20 head cattle, 26 cases hams and bacon, 5 cases household goods, 6 cases rubber goods and 3 bales feathers.

The steamer Rithet brought down from the Fraser 60 head of live stock, 40 bbls. lime, 381 sacks oats, and 30 packages miscellaneous articles.

Turns Up.

D. Little, of Alberni, whose disappearance was commented on in the *Courier* of May 25th, arrived in Nanaimo yesterday after suffering great hardships in the woods. After leaving Englishman's river Mr. Little, feeling both faint and sick, left his horse tied up on the Alberni road and travelling into the bush, speedily lost himself. After wandering around for nearly four days he arrived at a ranch occupied by a man named Taylor, where he obtained food and rest. On leaving the place and starting for his home at Alberni, Little again "bushed" himself, and might never have returned alive, as he was in a very weak condition, had he not been found by H. Edwards some few miles beyond Alberni, who brought him to the Nanaimo hospital.

Millionaire Tourists.

The Ancon arrived from the Sound early this morning, and sailed at 1:30 this afternoon for Alaska. On board, going north for pleasure combined with an inspection of the Treadwell mine, was the millionaire, D. O. Mills, accompanied by a party of six. Capt. Smith, another American millionaire, was also a passenger. All told there were almost 100 excursionists and 100 steerage passengers on the steamer. This morning a majority of the excursionists took hacks and drove through the city and suburbs, and made many purchases in the city. The steamer has a full freight, as usual, although the steamer Santa Cruz precedes her north also heavily laden. Five tons of fresh meat were taken on board from the B. C. Market, this city.

The Discovery at Yale.

Mr. James Dunn, one of the oldest miners on the coast, arrived from Yale last night. A few particulars were obtained from Mr. Dunn respecting the rich ledge which was reported to be discovered near Yale. The scene is about ten miles east of Yale and the discoverer is Mr. John M. Ruddick. Three claims have been located on the ledge, which is said to be free milling ore of great richness. The ledge is 4 ft.6 in. in width with well defined walls of slate and pulp. The ledge assays $196 to the ton, and the pulp shows even greater richness than the ledge.

Mr. Dunn is an old stager, having been engaged in mining for 30 years. He says there is no doubt of the richness of the new discovery. The ledge has been cleaned off and steps will be taken at once to open it out. Samples of the ore can be seen at the office of Mr. E. J. Thum in this city.

Mr. Dunn reports three or four companies working on Siwash creek, but he does not know how they are doing.

From Keremeos.

Mr. Thos. Daly, of Keremeos, arrived in the city last night. He reports the weather as exceedingly favorable in Okanagan district. The winter was mild and the spring favorable. Considerable rain has fallen, and the grass is much more luxuriant than at the same time in former years. Great progress has been made by the ranchers in improving their places. Mining matters are prospering. A galena lead was discovered near Keremeos by a mining expert named Hunter, which is being developed and looks promising. At Rock Creek, Mr. Douglas has struck a very rich body of ore on the claim owned by the Standard Oil Co. A very large amount of money has been already expended on this claim, and the prospects are so very encouraging that the company feel justified in erecting a mill as soon as the machinery can be brought in. A great many Chinamen are working placer claims and all are believed to be making money. The whole camp is prospering, and the prospectors and claim owners are more hopeful than ever before.

Thos. Ellis, of Cawston & Ellis, Penticton, has brought out a band of 120 head of beef cattle from Similkameen, coming over the Hope trail. The cattle are for B. Van Volkenburgh & Co., and will reach here to morrow night.

SAD DROWNING ACCIDENT.

Walter G. Unwin Loses His Death While Bathing and is Drowned.

While three boys were bathing on the Arm above Point Ellice bridge, between four and five o'clock last evening, one of them named Walter G. Unwin, nineteen years of age, ventured beyond his depth and was drowned. The body was recovered this morning by the father, Mr. George W. Unwin, Mr. George Crecdon, and Chas. T. Darkin, who proceeded to the locality in a boat and discovered it in seven feet of water, it being about half tide at the time.

An inquest was held in the undertaking rooms of Mr. Chas. Hayward this morning at 11 o'clock, by Coroner Jackson, when the sad circumstances attending the death of the young man were stated in the evidence.

The following jury was sworn: Henry Short (foreman), John L. Hawkins, Sam. Reid, J. L. Stamford, Fred Wallecstein, Fred Castleton. A party summoned on the jury did not answer to his name but appeared later on. A fine was not imposed although the coroner remarked that this would be necessary if men neglected their duty in this respect.

The jury having viewed the remains evidence was taken.

Lancy Oliver, 14 years of age was sworn:—He testified that he had gone with the other boys up to the sisters—the rocks at the first turn to the Gorge. All took a swim when Walter (the deceased) said he was going to go out to his neck and learn to swim or drown himself. Witness told him not to go further than his waist or the steward of the Club would require another waiter. We, said witness, Willie Reid and Richard Bittancourt and I commenced to dress, and we had our back to him. I looked round and saw him struggling in the water; could just see his head and started to swim out to him, but he sunk, and that was the last I saw of him. He never hollered or made a noise.

To the Jury—I saw him walk out to his neck in the water. I jumped in with my clothes on. We had no boat. We tried to get some sailors to dive for him but they would not believe that any one was drowned.

Richard Bittancourt testified that he had heard the evidence of Lancy Oliver and that it was true.

To the Jury—I knew he could not swim. He went up the Arm before I did. He went up alone. There was no one in the water with him. I did not see him rise. I jumped in but my clothes weighed me down.

William Reid, sworn, testified that he and the two other boys started to go for a swim and caught up to the deceased at the second bridge, near Mr. Grant's house. He was going for a swim alone. Witness, Oliver and Bittancourt went into the water first and swam once or twice around the Slater Rocks. When they came out to dress the deceased went in again and was up to his neck in water. He said he was on his tip-toes and that he was either going to swim or drown. He said this in fun. Witness said to Oliver he had better get ready to help him or there would be a waiter short. Oliver laughed. The next thing I heard, said the witness, was a gurgling noise, and I looked round and saw Unwin go down twice. I shouted to Oliver, who was nearest to him, to jump in and help him. He (Oliver) went in up to his neck with his clothes on, but could not reach him. Bittancourt jumped in but found he could not swim with his clothes on. The last I saw of Unwin he was trying to swim under the water, but he went down. I hollowed to some sailors across the Arm but when they came it was too late. A boat was coming up the Arm and we got in it and tried to find the body with sticks, but could not. When he went in I told him to be careful, that there was a hole near the rock, or he would go down in it.

To the Jury—We were the best of friends with him. We often went swimming together. He often went out to his neck before. There was about ten feet of water where he sank. The water is shallow out about to your neck and then it suddenly goes down. I told him when we were dressing to be careful, that there was no one to help him. He was a steady young man and did not drink. We have never had to try to save him before. He was very fond of the water and would walk out and come in under the water and try to swim. I have just seen the body; it is that of Walter Unwin.

The jury returned a verdict of accidental drowning without further deliberation.

The accident is a particularly sad one as the young man was sober and industrious and well liked by his fellows. He was a native of England, and 19 years of age. The funeral will take place on Sunday.

COWICHAN LAKE.

A Hunter's Paradise and the Future Watering Place.

Dr. Dickinson, of Cowichan Lake, who is in town, states that about twenty young men have taken up land in the vicinity of the lake, and are engaged in making improvements. There is much good land there and eventually a populous settlement will be located on the banks of this beautiful sheet of water. The fishing and hunting are excellent. Many from Victoria have visited the lake this summer and enjoyed rare sport. A few days ago, Dr. Dickinson says he took 20 pounds of trout from the lake.

Our informant is engaged in erecting an extensive new hotel which will accommodate about twenty people. It will be completed in about two weeks and will afford every comfort needed by hunters and other visitors. The old quarters were found altogether too small.

Mr. Theodore Glaser, formerly connected with the London, Eng., *Standard*, who is writing a book on British Columbia, is at present at the lake with his wife. He proposes to tramp it across the west coast in order to have a look at that part of the country.

Mr. Humbird, who purchased 20,000 acres of timber land from the E. & N. railway Company, is up there. He proposes to place a steam launch on the lake. The lake it will be remembered is about 25 miles in length.

Cowichan Lake is reached by a stage which leaves Duncan Station every second day. This place is without doubt destined to become one of the most popular hunting and pleasure resorts of the coast.

NEW WESTMINSTER.

The By-Laws Carried—Attempted Assassination—Accident.

Westminster, June 13.—The $200,000 waterworks by-law, for a waterworks system from Coquitlam Lake, was carried on Thursday by a majority of 248.

The street and park improvement by-law, authorizing a loan of $85,000, was carried by 226 majority.

H. Kirkland, manager of the Deas Island Cannery, was stabbed on Thursday by a Chinese employer. The Chinaman attempted suicide by drowning after the assault, but was rescued and placed under arrest.

Mrs. Tennesy, of Port Haney, in attempting to board the steamer Gladys at Johnston Landing with her four-year-old boy, was crushed against the bank by the steamer. She had a leg broken above and below the knee, and was otherwise injured. The boy was instantly killed.

Music in the Park.

The band of H. M. S. Swiftsure, under the direction of Mr. H. Everitt Hoseley, will perform the following choice programme on Beacon Hill to-morrow afternoon, commencing at 3:30:

Grand March	Tannhauser	Wagner
Overture	Don and Bayadore	Auber
Quartette	Louis XIII	Ibye
Selecting	Mikado	Sullivan
Valse	Thousand and One Nights	Strauss
Polka	Nightingale	Parlow

Arrived.

Bass XXXX Ale (Lamb's Wool) at the Occidental Hotel bar.

Degree of B. A.

J. Gill, son of Mr. Wm. Gill, Inspector of Inland Revenue, of this city, obtained his degree of B. A. at Toronto University last week. The young man is studying for the ministry.

CHILCOTIN.
FINE RANCH
FOR SALE
AT A BARGAIN.
PROVIS ESTATE.
We are instructed by the Administrator of the above estate to offer for private sale
THE FINE RANCH
Consisting of 120 acres of
MEADOW LAND,
Situated about five miles above Drummond & Beaumont's ranch, on Riskey Creek, on the wagon road from Soda Creek.
There are 20 head of cattle, one fine span of horses, new wagon, sleigh, plough, carpenter's tools and necessary farming implements.
A good never-failing stream of water is running in front of dwelling house. There is a water privilege, also to one-third of Riskey Creek for irrigation purposes, also the right of purchase of 160 acres of meadow land about 10 miles from said ranch, and the right to cut hay on a meadow about a mile distant.
The cattle range is one of the best in Chilcotin, and there is a large stack of hay and one of straw of last year's crop.
For terms and further particulars apply to
H. F. HEISTERMAN & CO.,
Land Agents,
8 Bastion Square.

A CARD.

SIR:—Noticing a letter from Mrs. Mary Howard, in Thursday evening's TIMES, relative to the Esquimalt mails, I desire to make an exact statement of the real facts of the case.
On Tuesday morning, at 8:45 o'clock, I arrived at Esquimalt with the regular mail. Two large bags. I took them into the Esquimalt post office, and asked Mrs. Howard, as the mail was all for the navy; to take charge of them until the naval postman arrived, as the ships would not return to the harbor until the afternoon. Mrs. Howard made no answer, but opened the two large bags, shook out the contents (nine small bags) and threw them out on the sidewalk. I asked her three times, in presence of several people, to retain possession of the bags, but the only answer I got was abuse. I finally asked officer J. D. Campbell to take charge of the mail (which lay on the sidewalk) while I returned to Victoria. Upon reaching Victoria I explained matters to the postmaster, and was told I had done perfectly right. When I again reached Esquimalt at 11:45 a.m. the mail was still on the sidewalk in Mr. Campbell's charge, but I understand it was taken into the post office afterwards. I may state that instead of being an annoyance to Mrs. Howard, I have always endeavored to oblige her in every possible manner, such as carrying parcels to and from Victoria, etc.

NEW ADVERTISEMENTS.

A Misleading Statement.

A JAMES MULCAHEY, the night bar-tender at the Colonial Hotel on Johnson street, desires to contradict the erroneous impression created relative to the arrest of one McCloskey, charged with obtaining money and drinks under false pretenses. The facts are these, but they were not fully developed in the police court: McCloskey was shaking at the bar for drinks; he was elected; he placed 50 cents on the bar to pay for the round; Mulcahey's attention was called to other customers at the time; McCloskey under notice of a boarder at the hotel slipped the money into his pocket, and when asked to pay used abusive language to Mulcahey and wanted to fight him. Mulcahey declined to create any disturbance in the house and McCloskey then attempted to escape by the back way from the hotel, but was called back by the bar-tender and asked to settle for the round. He came back, but whilst Mulcahey was engaged he made his escape by climbing over the fence adjacent to Morley's soda water factory. Subsequently he was arrested on Yates street, for obtaining the drinks and 10 cents which he alleged was due to him, whereas he neither paid for the refreshment nor had a dime due him. The bar-keeper only did his duty to his employer, and exposed one of the many tricks which Victoria may daily expect to hear about. jel4-1t
